*Assembly: Towards the World Assembly of Inhabitants 2011*

The Urban Social Forum approved the steps being made towards the World Assembly of Inhabitants (WSF Dakar, February 2011), with more than 350 organizations and international networks from 40 countries. The purpose of the stop over in Istanbul is reinforcing the establishment of National and European Unitary Promoter Committees, instituting an international platform of struggle and alternative, and defining coordination mechanisms to develop this democratic process.
